

Sirs,

I understand that you are trying to lesson the law of the no call list. I do not want you doing anything that is going to effect the law the way it is at the present time. I have went from receiving anywhere from 12 to 20 calls a week to none since being placed on this list. Please take into consideration the comments from the citizens. This gives you a lot less hassle of the harassing calls at all hours of the day and night. Thank you for your time.

Sincerely,

Stella House
